

# AquaKote™ Coated Folding Carton Board

AquaKote™ Coated Folding Carton Board is a high wet-strength sheet used primarily for beverage packaging applications. Available in a wide range of calipers, AquaKote™ Coated Folding Carton Board is designed to provide package integrity, line efficiency and performance in high-humidity conditions in filling line production, distribution and usage.

## **Food Contact Compliant**

FDA and EU compliant for contact with aqueous and fatty foods, as well as dry foods.

## **Excellent printability and glue adherence**

AquaKote™ Coated Folding Carton Board provides a superior printing surface that is engineered to deliver excellent print results and a cleaner running press. AquaKote™ is made from solid unbleached sulfate kraft fiber with a blend of virgin and recycled fiber. Three layers of clay coating provide a clean surface for high-quality graphics with a naturally beautiful brown back. AquaKote™ is engineered as a high wet-strength sheet that provides high stiffness with high resistance to tear, puncture and corner crush and provides efficient, reliable performance on packaging lines.

## **Advantages**

AquaKote™ is engineered to provide superior tear resistance when wet, while at the same time has excellent dry tear resistance. The AquaKote™ triple clay coated surface allows for beautiful graphic reproduction for eye-catching packages. AquaKote™ Coated Folding Carton Board is time proven for multiple packaging in wet environments and performs well on high-speed multiple packaging lines. AquaKote™ is created with an optimum blend of virgin and recycled fiber, and is recyclable and naturally biodegradable. SUS® carrier board technology developed by Graphic Packaging International.

## **Consistent performance in a variety of converting processes**

Carefully monitored board production and testing ensures that AquaKote™ Coated Folding Carton Board will run consistently well in all of your printing and converting operations.

## **Sustainability**

Paperboard products like AquaKote™ Coated Folding Carton Board is made from trees, a renewable resource, with renewable energy. Packaging made from AquaKote™ Coated Folding Carton Board is renewable where facilities exist.

## **Fiber Procurement and Chain of Custody**

Graphic Packaging International is compliant with the Forest Stewardship Council (FSC), Sustainable Forestry Initiative (SFI) and Programme for the Endorsement of Forest Certification (PEFC) Chain of Custody forest certification standards. GPI is also compliant with the SFI Certified Sourcing standard.
